## Coronavirus impact in UAE: What construction companies in Dubai are doing amid outbreak

Saman Haziq/Dubai

Filed on April 1, 2020 | Last updated on April 1, 2020 at 06:54 am

**All the workers have to get their body temperature checked twice a day before coming to the site.**

It is business as usual for hundreds of construction workers across the UAE, however, in compliance with the precautionary measures put in place by the government of Dubai, companies are adopting all possible steps to keep their health in check.

Azmee Ahmed, business development and contractual manager at Dubai based construction company - Bharat Construction, said the company has safety officers at all the three sites to monitor the precautionary measures the workers have been advised to take when onsite.

"We have construction workers spread across three sites. To keep a check on their health and well-being we have deputed safety managers who see to it that the workers are maintaining the required physical distance between each other while working on sites. We have given masks and gloves for their protection that they have to wear at all times apart from keeping sanitizers around them. The safety officers also keep telling the workers to wash their hands after every half an hour or so."

Ahmed added that body temperature scanners check the workers temperature before they enter the site and when they leave the site.

He added that even after the workers reach their labour accommodations, they are required to take a shower and disinfect their clothes using the prescribed disinfectants.

"We are taking all measures as per the UAE law as well as the WHO advisory because we know this is a very delicate situation. God forbid if even one of the workers' get this virus, it can easily spread to many more as they stay together in the labour accommodations," Ahmed added.

Captain Amjad Choudhry, who runs a construction company Al Mehr Contracting with 265 construction workers, believes that apart from supplying the workers with gloves and masks, they also need to be educated on the subject of the Covid-19 so they take care of themselves and their friends responsibly.
